

**THE
\$GOOSE COIN
Goosepaper**

Mission Statement:

GOOSE coin is an experimental meme coin started with only \$100 in initial liquidity. It seeks to challenge the current status quo of tokens with buy/sell taxes and huge initial liquidity. We created a token who's only utility is purely meme based and one that people can buy/sell/transfer with no penalty because GOOSE should be free to fly wherever they want.

Tokenomics:

0% buy tax
0% sell tax
0% transfer tax
100% HONK

Token Distribution:

Total Supply -
10,000

Goose that were cooked by sending them to the burn address on launch day-
8,500

Dev wallet -
250

Marketing Wallet -
250

Roadmap plans:

HONK our way to the moon while having a HONKing good time
Raise awareness with the twitter #HONK campaign
Twitter meme contest to get the community going

Why GOOSE coin?

Unlike other meme tokens we're not gonna lie to you. The only reason you should buy GOOSE is because it's fun to own. It's designed to be a HONKing good time. So get in and HONK it up!
